

## AF-90, AFN-90

Bend 90°

AF-90-B×H galvanized steel.

AFN-90-B×H stainless steel.

For product toughness and connections flanges are used.

when $B \leq 1500$ mm	$F = 20$ mm
-----------------------	-------------

when $1500 \text{ mm} < B \leq 2000$ mm	$F = 30$ mm
---	-------------

when $B > 2000$ mm	$F = 40$ mm
--------------------	-------------

Standard radius  $R = 150$  mm.

On demand: 15°, 30°, 60° angle bends can be made.

B – width, mm (100-2000).

H – height, mm (100-2000).
