

DOFM

Rectangular smoke duct (Multi)

Technical characteristics:

- fire resistance 1000, 60 min,
- installed in a horizontal ho or vertical ve positions,
- smoke tightness S,
- biggest allowed excessive pressure +500 Pa and vacuum -1500 Pa pressure,
- used for multi or single fire compartment.

B – width, mm	H – height, mm
200 ÷ 1250	100 ÷ 1000

For product tightness and connections F = 30 flanges are used.

Flanges used F = 30 mm.

Insulation thickness 60 mm.
