

KSD

SILENCER BOX

The silencer box is specifically engineered for the KOMBI unit, featuring integrated silencer elements to attenuate the operational noise of the heat pump and ventilation unit. Noise attenuation approx. 9 dB(A).

The KSD box is 700 mm wide and 700 mm in height. Depth can range from 500 mm to 650 mm according to the thickness of the wall. The external grille measures 700x700 mm and can be selected in different colors.
