

MP - R350V Mounting plate installation instructions

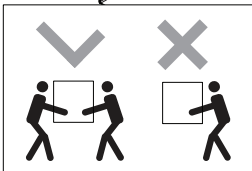

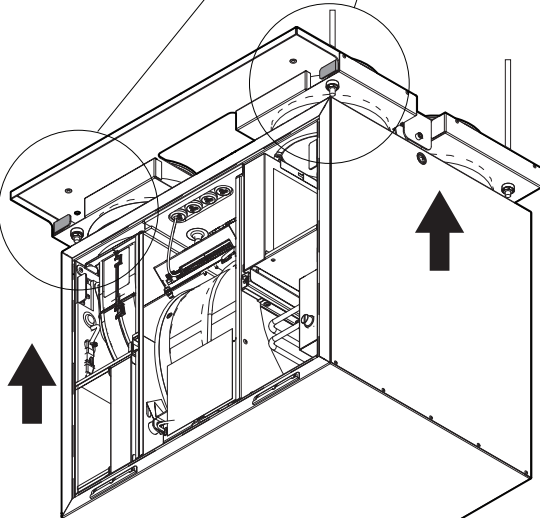

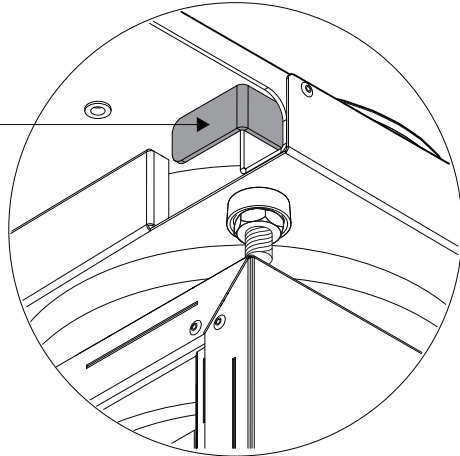

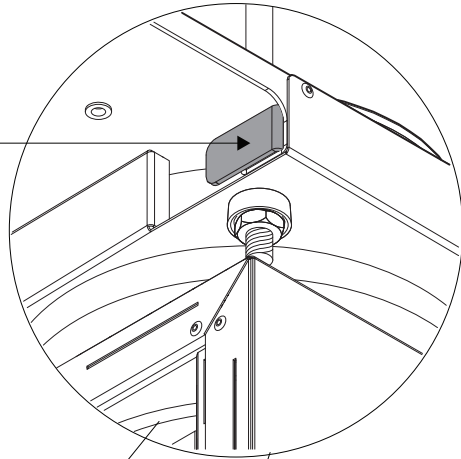

- 1 Unscrew 2 bolts and remove decorative cover
- 2 Remove the unit doors and kitchen hood connection plug
- 3 **IMPORTANT:** If kitchen hood duct will not be connected to the air handling unit, shut the kitchen hood connection on the mounting plate with a plug
- 4 Hang the mounting plate on to the threaded rods (M8) and make it level. Connect the air ducts
- 5 **OPTIONAL:** If needed, additionally fix mounting plate to the wall or partition. Use three screws at least
- 6 Lift the air handling unit and press it firmly against the bottom of the mounting plate until the retaining hooks on both sides lock into place and two plates in the corners are in fully retracted position.
- 7 Reinstall decorative cover and doors
- 8 **OPTIONAL:** If removal of the air handling unit will be necessary, remove decorative cover and pull both plates to release the retaining hooks so the unit can be lowered down
