

MYT, MYTN

Long coupling

Couplings are designed to join two air ducts or two joints.

MT-d inner, has both ends for inlet connection. MI-d has on a both sides enveloping connections. Extended couplings:

MYT-d has inlet connections for both ends;

MYTI-d has one inlet and one enveloping connections.

Couplings are made from galvanized steel.

On demand, couplings can be made:

MTD-d, MIN-d, MYTN-d, MYTI-d from AISI-304 or AISI-316 stainless steel;

MTC-d, MIC-d, MYTC-d, MYTIC-d from galvanized steel and covered with powder coating.
