

OFX

Insulated duct

OFX-B×H-1250 galvanized steel.

For product toughness and connections flanges are used:

when $B \leq 1500$ mm	$F = 20$ mm
when $1500 \text{ mm} < B \leq 2000$ mm	$F = 30$ mm
when $B > 2000$ mm	$F = 40$ mm

Standard length $L = 1250$ mm.

Insulation material thickness – 50 mm.

B – width, mm (100-2000).

H – height, mm (100-2000).
