

STSP

Rectangular baffler-type silencer with cleaning

- 1) STS silencers, the main silencing component which is made of fiberglass "S" type - shall be cleaned in a dry and semi-wet manner.
It is not recommended to wash and press materials.
- 2) STS silencers made of glass cloth "W" are wet cleaned (washable). Ask your retailer for prices of cleaned silencers.
- 3) Unique construction code is generated in the selection program, according to the selected silencer characteristic.

STS C P - IEX7BJ - 1000 - 600 - 1250 - D S
